

ST GLIDER CLOUDZERO®

Metal-to-the-Floor Mechanism

Smooth glider meets ergonomic CloudZero® position in this all-new mechanism designed for comfort.

The ST Glider CloudZero® is a metal-to-the-floor power-only mechanism with a smooth, continuous back-and-forth gliding motion. The CloudZero® position takes full-recline to a new level of comfort and relaxation with a 4.6" to 6" elevation over a standard full-recline mechanism. The design features an extended layout and improved linkages in high-stress areas while supporting up to 350 lbs. Headrest options are available.
